Department of EECS

University of California at Berkeley

Goals for Discussion

Identify most important areas for improvement (what are the biggest current problems?).

Discuss possible solutions.

Marketing: how to make Tcl and Tk take over the world?

Possible Discussion Topics

1. Managing extensions.

2. Restricting scripts (security etc.).

3. Generalizing Tk bindings.

4. Better object management facilities.

5. Internationalization.

6. Procedure library for Tk.
